2006

FOREWORD

The annual graduate follow-up survey collects information from graduates of regular and non-regular training programs approximately one year following graduation. The information gathered provides valuable feedback on the success of graduates in the labour market and is an important tool for decision-makers. This tool, along with other sources, is incorporated into the Department's planning process.

This report presents the findings of the *Survey of 2005 New Brunswick Community College Graduates*. The survey was conducted with 1,927 graduates over an eight-week period starting June 29th, 2006. This represents a response rate of 73%.

The reference week for the survey was June 4th – June 10th, 2006. Survey results indicate that graduates of the Class of 2005 were again very successful in locating employment, with an employment rate of 90%. This is the highest rate ever achieved by the NBCC.

The Department would like to thank the New Brunswick Community College graduates who participated in this survey; their input has been invaluable.

Graduate follow-up survey results will be located on our website at the following location:
<http://www.gnb.ca/0126/0001e.htm>.

As always, your comments and suggestions are welcome. Please forward all communication on this year's survey to:

SOURCES OF INFORMATION

In addition to the *Survey of New Brunswick Community College Graduates*, the following are selected New Brunswick sources of on-line career, learning and labour market information. The list is not all-inclusive, as there are a multitude of information sources available. Not all of the following sources are related to the Department of Post-Secondary Education, Training and Labour, unless otherwise indicated. The descriptions have been adapted from the publications themselves.

NBCC Calendar On-line

<http://www.nbcc.nb.ca>

This is the official website for the New Brunswick Community College network. It provides general information on admissions to the colleges, as well as a complete on-line calendar.

New Brunswick Student Financial Assistance

<http://www.studentaid.gnb.ca/>

The Student Financial Services Branch of the Department of Post-Secondary Education, Training and Labour administers and delivers all government student loan programs and most associated bursaries and grants. Student Financial Assistance is designed to assist eligible New Brunswick residents to access post-secondary educational opportunities. This website provides links to the Student Financial Assistance Information Guide and on-line forms.

Training and Skills Development (TSD) Program

<http://www.gnb.ca/0311/2be.htm>

The Department of Post-Secondary Education, Training and Labour provides support through its TSD Program to eligible Employment Insurance (EI) clients who require training or academic upgrading as part of their employment action plan. This site provides details on the program, who is eligible, the level of support available, and who to contact for further information.

Labour Market Analysis Branch – Labour Market Information Products

<http://www.gnb.ca/0126/0001e.htm>

The Labour Market Analysis Branch's Information Products page provides links to our wide variety of on-line labour market information products, including the on-line version of this publication.

New Brunswick Job Futures

<http://nb.jobfutures.org>

This is a joint publication between HRSDC – NB Region and the Department of Post-Secondary Education, Training and Labour. It provides information on the current trends and future outlooks for 154 occupations common to New Brunswick.

Service Canada – New Brunswick Regional Site

http://www1.servicecanada.gc.ca/en/gateways/where_you_live/regions/nb.shtml

This site provides information on the programs and services offered by Service Canada in New Brunswick, including labour market information.

NB Jobs

www.nbjobs.ca

This website promotes job opportunities in New Brunswick. It was developed by CareerBeacon.com in conjunction with the Government of New Brunswick.

New Brunswick Community College Locations

Information on programs offered through the New Brunswick Community Colleges can be obtained through any of the colleges listed below, or at the following websites:

Executive Summary

This report presents the findings of the *Survey of 2005 New Brunswick Community College Graduates*. This follow-up survey generated information from 1,927 graduates, representing 73% of the 2,654 graduates to be contacted for this survey.

The points that follow present key information obtained through the 2006 survey.

- The employment rate for graduates one year following graduation was 90%, an increase of three percentage points over 2005 (87%).
- The employment rate for female graduates was 92%, an increase from 89% in 2005.
- The employment rate for male graduates was 88%, an increase from 86% in 2005.
- The unemployment rate for graduates was 10% in 2006, compared to 13% in 2005.
- Overall, the percentage of related employment since graduation as a percentage of total employment decreased from 89% in 2005 to 80% in 2006.
- The level of related employment *in the 2006 reference week* increased from 80% in 2005 to 83% in 2006.
- The percentage of employed graduates working in New Brunswick has remained stable over the past year (89% in 2005 and 2006).
- The percentage of graduates who reported being self-employed was 2% in 2006, unchanged from 2005.
- The majority (89%) of employed graduates in 2006 continued to work for one employer in the reference week, similar to that reported in 2005 (88%).
- Female graduates in full-time positions earned approximately 86% of the wages of male graduates in full-time positions, an increase of three percentage points over 2005 results. Female graduates working full-time in positions related to their training also earned 86% of the average wages of male graduates in similar positions, again an increase of three percentage points over that reported in 2005.

1.0 Introduction

Follow-up surveys with graduates of New Brunswick Community Colleges (NBCC) have been conducted since 1983. For the past eighteen years the survey has been conducted by telephone. The survey is conducted annually with graduates of regular and non-regular programs of the Colleges. For the 2006 survey, interviews were completed with 1,927 graduates from a total listing of 2,654 graduates who were eligible to participate in the survey.

The data supplied by these surveys provides valuable feedback on the success of New Brunswick Community College graduates in the labour market, which, in turn, serves as an important indicator of how well the training provided by the NBCC system corresponds to the demands of the labour market.

This report provides detailed information gathered from the *Survey of 2005 New Brunswick Community College Graduates* through five sections, which are summarized in the material which follows.

- **Section 2.0** presents the methodology of the 2006 survey and provides a profile of the graduates contacted with a comparison with the overall population of graduates.
- **Section 3.0** presents the information highlights from the 2006 survey.
- **Section 4.0** presents fact sheets that report the survey information on a program-by-program basis.
- **Section 5.0** presents labour market information on a program-by-program basis.
- **Section 6.0** presents the evaluations provided by graduates of programs and services offered at NBCC.

A list of the terminology used in this report is provided in Appendix A.

2.0 Methodology

The *Survey of 2005 New Brunswick Community College Graduates* was guided by researchers from the Labour Market Analysis Branch of the Department of Post-Secondary Education, Training and Labour (the Department). Any comments or questions about the information contained in this document should be forwarded to the Department.

In June 2006, the Department generated a database with background and current contact information for 2,721 graduates from the Class of 2005. The background data and required contact information was retrieved from the Department's student information management system.

Prior to the start of the survey (in June 2006), the database was reduced by fifteen (15) graduates for whom no current telephone numbers were available. During the data collection period, fifty-two (52) respondents were removed from the original list because they indicated that they were not graduates of a 2005 program. Following removal of these names from the database, there were 2,654 potential contacts for the Class of 2005. The 1,927 interviews completed represent 73% of the total number of graduates who were eligible to participate in this survey.

As in previous surveys, graduates were asked about their activities during a specific week of the year (the reference week). Reference week information is an indicator of graduates' current activities. ***The reference week for the 2006 survey was June 4th – June 10th, 2006.***

In addition to reference week information and information collected on activities since completing their training, graduates were also asked to evaluate their NBCC training program and various facilities and services available at their college.

The overall approach to the Graduate Follow-Up Survey was changed in 1996. Previously, surveys were conducted in March, capturing information from graduates of the previous academic year. The change in the time of the reference week should be kept in mind when comparing the results from the surveys in 1996 - 2006 to those conducted in previous years. For example, the question asking respondents if they were studying during the reference week gave very different results in 1996 - 2006 compared to previous years. These differences are understandable considering that most people enrolled in post-secondary institutions would be attending classes in March but not in June.

This survey was administered by telephone, using a Computer Assisted Telephone Interviewing (CATI) system, and an attempt was made to contact all graduates, regardless of their current area of residence. Graduates were assured of absolute confidentiality of responses and were informed of their valuable contribution to the study. Market Quest's toll-free number was provided to graduates if they had any questions or apprehensions about the survey. Graduates were given the option to complete the survey in French or English. Data collection for this study was completed over an eight-week period during the summer of 2006.

The 2006 survey response rate of 73% is lower than the 80% that was achieved historically. In recent years, it has required additional time for data collection to achieve the desired response rate.

The table that follows presents a summary of response rates for the surveys over the 2002 – 2006 period. As shown in the table, response rates have decreased over the past five years.

Table 1: Response Rates 2002-2006

	Graduate Population	Survey Population	Response Rate
2006 Regular/Non-Regular	2,654	1,927	73%
2006 Regular	2,236	1,622	73%
2005 Regular/Non-Regular	2,385	1,794	75%
2005 Regular	1,873	1,517	81%
2004 Regular/Non-Regular	2,416	1,922	80%
2004 Regular	2,162	1,729	80%
2003 Regular/Non-Regular	2,667	2,125	80%
2003 Regular	2,115	1,696	80%
2002 Regular/Non-Regular	2,580	2,080	81%
2002 Regular	2,179	1,773	81%

Measuring labour market participation is a primary objective of the graduate follow-up surveys. Because of the importance of this information, an attempt was made to determine the extent to which a change in the time of the reference week (initiated in 1996) affected the results of reported labour force activity. The potential effects were initially monitored in the 1996 survey and monitoring has continued through to the current survey.

As shown in the following table, the labour force participation rate was higher in June (96%) than in March (91%); however, the employment rate remained stable in March and June (89% and 90%, respectively).

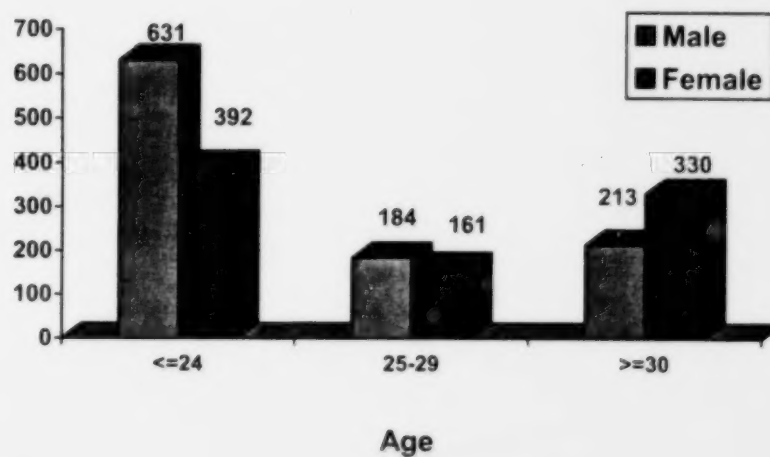

Table 2: Labour Market Information – Comparison of March 2006 and June 2006

Labour Market Indicators	June 2006 (N=1,927)		March 2006 (N=1,920 ¹)	
	n	%	n	%
Labour Force Participation Rate	1,843	96	1,756	91
Employed	1,652	90	1,562	89
Unemployed	191	10	194	11

¹ Seven respondents were unable to be classified as Employed, Unemployed, or Not in the Labour Force due to a lack of information provided.

The following figure presents an overview of the age and gender distribution for graduates contacted. Most commonly, respondents were males aged 24 years or younger.

Figure 1: Respondents by Age and Gender

The table that follows presents a comparative summary of graduates contacted in follow-up surveys over the past five years. Prior to 2000, there had been significant increases in the percentage of graduates 25 years of age or older and significant increases in the percentage of female graduates.

The percentage of female graduates in 2006 remains relatively stable compared to 2005 (46% and 48%, respectively). The percentage of graduates 25 years of age or older has also remained relatively stable over the past year (44% in 2005 compared to 46% in 2006).

Table 3: Demographics 2002-2006

Gender	Male	Female
2006 Regular/Non-Regular	54%	46%
2006 Regular	57%	43%

2002 Regular/Non-Regular	63%	37%
2002 Regular	68%	32%

3.0 Survey Highlights

The information in this section presents a summary of research findings for the Class of 2005 along with a comparison of key variables in relation to research findings from previous years.

3.1 LABOUR FORCE INFORMATION

The labour force participation rate for all graduates has remained relatively stable over the past year (95% in 2005 compared to 96% in 2006).

Table 4: Labour Force Participation Rate 2002-2006

	Total	Male	Female
2006 Regular/Non-Regular	96%	96%	96%
2006 Regular	96%	96%	96%
2005 Regular/Non-Regular	95%	95%	94%
2005 Regular	95%	95%	95%
2004 Regular/Non-Regular	96%	95%	96%
2004 Regular	96%	96%	95%
2003 Regular/Non-Regular	95%	96%	95%
2003 Regular	95%	96%	94%
2002 Regular/Non-Regular	97%	97%	96%
2002 Regular	96%	97%	96%

The table which follows presents comparative labour market information for the 2006 survey and the population of New Brunswick. As shown, graduates had a higher unemployment rate than the province as a whole (10% and 8%, respectively); however, the unemployment rate for graduates was lower than the youth unemployment rate of 13% (unadjusted) for June 2006.

Table 5: Labour Market Information – NBCC Graduates and Population of New Brunswick

Labour Market Indicators	Labour Force Survey ²	2006 Survey		
		Overall	Regular Programs	Non-Regular Programs
Labour Force	389,600	1,843	1,551	292
Employed	358,500	1,652	1,390	262
Unemployed	31,100	191	161	30
Participation Rate	64%	96%	96%	96%
Unemployment Rate	8%	10%	10%	10%

The table that follows summarizes employment rates from 2002 - 2006 overall and by gender. Overall, the employment rate has increased over the past year, from 87% in 2005 to 90% in 2006. Furthermore, the employment rate for female graduates has increased compared to 2005 (92% and 89%, respectively), while male graduates have seen a similar increase over the same period (88% and 86%, respectively). Consistent with previous years, female graduates continue to have a higher employment rate, overall, compared to male graduates.

Table 6: Employment Rate 2002-2006

	Total	Male	Female
2006 Regular/Non-Regular	90%	88%	92%
2006 Regular	90%	88%	92%
2005 Regular/Non-Regular	87%	86%	89%

2003 Regular	88%	86%	90%
2002 Regular/Non-Regular	88%	88%	91%
2002 Regular	88%	86%	91%

² Statistics Canada Labour Force Survey, June 2006, seasonally adjusted. The unadjusted unemployment rate for youth aged 15-24 was 13% in June 2006.

As shown below, the majority of employed graduates (89%) continue to be employed in New Brunswick. Furthermore, the same percentage of employed graduates (89%) reported that they currently reside within the province.

Table 7: Percentage of Employed Graduates Working in New Brunswick

2006 Regular/Non-Regular	89%
2006 Regular	88%
2005 Regular/Non-Regular	89%
2005 Regular	89%

2002 Regular/Non-Regular	90%
2002 Regular	89%

3.2 ADDITIONAL EDUCATION/ TRAINING FOR GRADUATES

In surveys prior to 2001, graduates were asked if they were attending an educational institution or training program at the time of survey contact. Since 2001, respondents have been asked if they were attending an educational institution or training program or planning to attend in the near future.

As demonstrated in the table that follows, the percentage of graduates attending or planning to attend an educational institution or training program has increased steadily from 2002 (11%) to 2006 (19%).

Table 8: Percentage of Graduates Taking Further Study

2006 Regular/Non-Regular	19%
2006 Regular	19%
2005 Regular/Non-Regular	16%

2003 Regular/Non-Regular	98%
2003 Regular	98%
2002 Regular/Non-Regular	98%
2002 Regular	98%

3.3 OVERALL EMPLOYMENT FOR GRADUATES

The table which follows demonstrates the percentage of graduates with at least one month of employment in a position related to their training. Since graduation, 88% of graduates have been employed in positions related to their training. More specifically, graduates averaged 80% of their months employed since graduation in positions related to their training, a decrease of nine percentage points since 2005.

Table 10: Percentage of Respondents in Related Employment Since Completing Training

2006 Regular/Non-Regular	88%
2006 Regular	88%

3.4 GEOGRAPHIC LOCATION OF GRADUATES

In June 2006, 89% of graduates were residing in New Brunswick, similar to the findings for the previous class of graduates (90%).

Approximately 17% of graduates have lived outside New Brunswick since graduation. Among those who have lived outside the province (n=322), the majority (71%) left the province for employment. In 2006, 41% of graduates who left the province for employment had obtained employment prior to relocation, compared to 57% in 2005.

Table 11: Geographic Location of Graduates

	Currently living in same community as before NBCC...	Lived outside NB at some point since completing training...	Of those who left - the percentage who left for employment reasons...	Of those who left for employment reasons - the percentage with a job to go to...
2006	74%	17%	71%	41%
2005	73%	15%	64%	57%

Graduates Currently Living in Same Community as before NBCC by College

Bathurst	71%	Miramichi	70%
Campbellton	72%	Moncton	72%
NBCCD	59%	Péninsule acadienne	77%
Dieppe	69%	Saint John	80%
Edmundston	56%	St. Andrews	68%
		Woodstock	84%

At the time of the survey, graduates most commonly resided in Moncton (10%) or Saint John (9%).

Top Locations Where Graduates Currently Reside

Moncton	10%	Quispamsis	2%
Saint John	9%	Edmundston	1%

3.5 REFERENCE WEEK EMPLOYMENT

Employed

The following tables present an overview of information which describes employment during the reference week³.

Table 12: Reference Week Employment Summary

Total Employed	One Employer	More than One Employer	One Employer and Self-Employed	Self-Employed
1,652	89%	8%	1%	2%

As in previous years, the majority of employed graduates (74%) were employed in permanent positions during the reference week. However, the percentage of graduates employed in permanent positions has increased from the period of 2002 (69%) to 2006 (74%).

Table 13: Employment Status During Reference Week

	Permanent	Temporary	Self-Employed
2006 Regular/Non-Regular	74%	24%	2%
2006 Regular	75%	23%	2%
2005 Regular/Non-Regular	70%	28%	2%
2005 Regular	71%	27%	2%
2004 Regular/Non-Regular	68%	30%	2%
2004 Regular	68%	30%	2%
2003 Regular/Non-Regular	67%	32%	1%
2003 Regular	69%	30%	1%
2002 Regular/Non-Regular	69%	30%	1%
2002 Regular	69%	29%	2%

³ Employment details including job classification, hours of work, average wages, and occupation were not collected for 24 graduates who were on maternity leave during the reference week.

As with previous years, the majority of employed graduates (68%) were employed in positions directly related to their training. Overall, related employment (directly and indirectly) has increased over the past year (83% compared to 80% in 2005).

Table 14: Relation of Reference Week Work to Training

	Directly Related	Indirectly Related	Not at All Related
2006 Regular/Non-Regular	68%	15%	17%
2006 Regular	68%	15%	17%
2005 Regular/Non-Regular	65%	15%	20%
2005 Regular	65%	15%	20%
2004 Regular/Non-Regular	64%	14%	22%
2004 Regular	63%	14%	23%
2003 Regular/Non-Regular	62%	17%	21%
2003 Regular	61%	18%	21%
2002 Regular/Non-Regular	63%	19%	18%
2002 Regular	62%	19%	19%

While the employment rate for Co-op graduates (92%) was similar to the overall employment rate (90%), a higher percentage of employed Co-op graduates were employed in positions related to their training compared to graduates overall (88% and 83%, respectively).

Table 15: Employment Comparison - Graduates of Co-op Programs

	Total in the Labour Force	Employment Rate	Relationship of Employment to Training		
			Directly Related	Indirectly Related	Not at all Related
All graduates	1,843	90%	68%	15%	17%
Co-op graduates	158	92%	66%	22%	12%

The percentage of graduates employed in full-time positions has remained consistent with findings from 2005 (94% and 93%, respectively).

Table 16: Full and Part-Time Employment in Reference Week

	Full-time			Part-time		
	Overall	Females	Males	Overall	Females	Males
2006 Regular/Non-Regular	94%	90%	97%	6%	10%	3%
2006 Regular	95%	92%	98%	5%	8%	2%
2005 Regular/Non-Regular	93%	87%	98%	7%	13%	2%
2005 Regular	93%	87%	98%	7%	13%	2%
2004 Regular/Non-Regular	94%	90%	96%	6%	10%	4%
2004 Regular	94%	90%	96%	6%	10%	4%
2003 Regular/Non-Regular	92%	89%	94%	8%	11%	6%
2003 Regular	92%	88%	95%	8%	12%	5%

2002 Regular	93%	88%	97%	7%	12%	3%

Graduates working full-time averaged 41 hours in the reference week with an average wage of \$578. Graduates working part-time averaged 20 hours with an average wage of \$321.

The table which follows provides more detailed information on wages reported by gender and job classification.

Table 17: Weekly Wages for Full and Part-Time Employment in Reference Week by Gender and Job Classification

	Full-time			Part-time		
	Overall	Females	Males	Overall	Females	Males
Permanent	\$575	\$511	\$616	\$334	\$331	\$341
Temporary/Casual	\$586	\$564	\$615	\$290	\$318	\$200
Self-Employment	\$620	-	\$620	-	-	-

Graduates were asked for their perceptions about the wages they earned in the reference week. Overall:

- 10% of employed graduates reported that their wages were much better than those of others in similar positions;
- 26% reported that their wages were better than those of others in similar positions;
- 50% reported that their wages were the same as those for others in similar positions; and
- 14% reported that their wages were worse (12%) or much worse (2%) than those for others in similar positions.

The table which follows shows the average full-time and part-time wages of employed graduates based on their perceptions of these wages. As shown below, there appears to be a relationship between the wages earned in the reference week and perceptions about those wages, whereby the higher the wages, the more positive the perception of these wages compared to wages in other similar positions.

Table 18: Satisfaction With Wages		
Perception Of Wages	Average FT Wage	Average PT Wage
Overall Average	\$578	\$321
Much Better	\$681	\$469
Better	\$619	\$332
Same	\$563	\$323
Worse	\$491	\$278
Much Worse	\$517	\$179

The table that follows summarizes the length of time graduates have been employed in the reference week job. Similar to previous years, the majority of employed graduates (66%) have been employed in the reference week job for at least 31 weeks.

Table 19: Time in Reference Week Job

	1-10 Weeks	11-30 Weeks	31-50 Weeks	51+ Weeks
2006 Regular/Non-Regular	15%	19%	31%	35%

Industrial Classification of Employment

Starting with the 1999 Survey, industries in which graduates were employed in the Reference Week were coded according to the North American Industrial Classification System (NAICS). Should researchers want to compare employment in industrial sectors for 1999-2002 with other graduate survey data, a conversion program would be required. Conversion programs are available through Statistics Canada. Note that the NAICS numbers used represent major groupings within NAICS.

Most commonly, employed graduates worked in the Health Care and Social Assistance industry (22%).

Table 23: Top Industries - Employed Graduates

NAICS	Industrial Sectors	Total	Full-time	FT \$	Part-time	PT \$
Overall		1,628	94%	\$578	6%	\$321
62	Health Care	355	91%	\$600	9%	\$405
31	Manufacturing	182	98%	\$642	2%	\$312
23	Construction	156	99%	\$585	1%	-
44	Retail Trade	127	88%	\$408	12%	\$164
81	Other Services (Except Public Administration)	96	98%	\$478	2%	\$557
91	Public Administration	96	93%	\$658	7%	\$284
54	Professional, Scientific & Technical Services	81	96%	\$576	4%	\$347
56	Administrative & Support	77	99%	\$458	1%	-
61	Educational Services	62	74%	\$587	26%	\$341
72	Accommodation & Food Services	61	87%	\$422	13%	\$264

Employed female graduates most commonly worked in the Health Care and Social Assistance industry (40%).

Table 24: Top Industries - Employed Female Graduates

NAICS	Industrial Sectors	Total	Full-time	FT \$	Part-time	PT \$
Females Overall		762	90%	\$527	10%	\$327
62	Health Care	308	91%	\$591	9%	\$419
44	Retail Trade	63	85%	\$379	15%	\$163
91	Public Administration	56	91%	\$636	9%	\$288

51	Information & Cultural Industries	35	97%	\$641	3%	-

Gender Differences in Wages

In past graduate surveys, gaps have been identified between the overall wages of male and female graduates. In 2006, male graduates averaged \$616 per week in full-time positions, while female graduates in full-time positions averaged \$527 per week, a gap of approximately 14%.

Since it has been demonstrated that males and females tend to be employed in different occupations, gaps may be expected; however, as shown in the following table, similar wage gaps do not always exist when male and female graduates are employed in the same occupations.

Table 26: Average Full-Time Wages for Male and Female Graduates in Similar Positions

Occupation (NOC)	Full-Time Weekly Salary		
	Males	Females	Female Wage Gap/Gain
All Employed Graduates	\$616	\$527	-14%
3233 - Licensed Practical Nurses	\$634	\$680	+7%
1453 - Customer Service Information Clerks	\$409	\$419	+2%
6421 - Retail Salespersons & Sales Clerks	\$413	\$426	+3%
2282 - User Support Technicians	\$615	\$560	-9%
6462 - Correctional Service Officers	\$706	\$700	-1%
2263 - Public Health Inspectors	\$603	\$571	-5%
1411 - General Office Clerks	\$359	\$508	+42%
1431 - Accounting and Related Clerks	\$639	\$449	-30%
4153 - Family, Marriage, & Other Related Counsellors	\$400	\$495	+24%
4131 - College & Other Vocational Instructors	\$770	\$835	+8%
2174 - Computer Programmers	\$637	\$525	-18%

Unemployed and Not in the Labour Force

Overall, 10% of graduates contacted (n=191) were unemployed in the reference week. The table which follows demonstrates that the unemployment rate varied considerably when segmented by college. Information on unemployment rates within programs is presented in Section 5.0.

Unemployment Rate by College

Bathurst	14%	Moncton	9%
Campbellton	12%	Péninsule acadienne	15%
NBCCD	5%	Saint John	8%
Dieppe	9%	St. Andrews	10%
Edmundston	12%	Woodstock	9%
Miramichi	17%		

Graduates who were not employed during the reference week (n=275) were asked to provide the main reason for this lack of employment. Graduates who were not employed include those who were unemployed and those who were not in the labour force.

Most commonly, graduates were not working during the reference week because of an inability to find jobs related to their NBCC training (25%), unable to find work/lack of jobs (20%), and in school/training full-time (19%).

Table 27: Main Reason for Not Working Among Graduates Not Employed

Inability to find jobs related to NBCC training	25%
Unable to find work/ lack of jobs	20%
In school/training full-time	19%
Awaiting job start or recall	9%
Own illness or disability	7%
Personal or family responsibilities	5%
Relocating/moving	3%
Wages not satisfactory for jobs that are available	2%
Taking time off/vacation/travelling	2%
Other mentions	8%

Twenty percent of graduates not working during the reference week (n=56) reported attending or planning to attend an educational institution or training program. These graduates provided the following reasons for their return to an educational institution or training program:

- to upgrade existing skills (61%);
- to get a university degree (14%);
- to learn a new trade or occupation (12%);
- to get a better job (7%);
- to find employment (4%); and
- some other reason (2%).

3.6 OTHER SURVEY FINDINGS

Employment Since Graduation

The strong majority of graduates (98%) have been employed since graduation; and those employed averaged 1.7 different jobs. The percentage of graduates who have been employed since graduation has remained stable over the past year (97% for the previous class of graduates).

Motivations for Community College Enrollment

Beginning with the 1999 survey, all graduates were asked why they had decided to pursue their training at the NBCC rather than through a university or private training program. Overall, graduates offered the following reasons for pursuing training at NBCC:

- the training is only offered at a particular college (25%);
- tuition/costs (21%);
- the location of a particular college (10%);
- length of program (9%);
- reputation of NBCC (8%);
- more hands on/more detailed and specific/more on-the-job training (5%);
- a desire to go there (4%);
- job prospects (4%);
- not interested in attending university (3%);
- smaller classes/more teacher/student interaction (2%);
- low grades (2%); and
- other reasons (7%).

When asked why they had selected a particular college for their program of study, the following reasons were provided:

- location (57%);
- particular program was available only at the college selected (27%);
- reputation (6%);
- preferred language of instruction offered (2%);
- friends/relatives attended/currently attending same college (2%); and
- other reasons (6%).

The strong majority of graduates (93%) were accepted to the NBCC in the year in which they made their initial application.

Overall, 83% of graduates reported that based on their experiences since completing the program, they would select the same field of study if they were making the decision about enrollment today.

Prior Learning Assessment and Recognition and Credit Transfer Services

Graduates were asked questions to determine their awareness, use and evaluation of PLAR and Credit Transfer Services. Overall:

- 57% of graduates reported that they were aware of these services; and
- 43% were not aware of these services.

When contacted in 2005, 62% of graduates reported awareness of PLAR and Credit Transfer Services.

Among those who were aware of these services (n=1,105):

- 64% heard about PLAR through the college;
- 27% heard about PLAR through word-of-mouth; and
- 9% heard about PLAR through other means.

Of graduates who were aware of these services, 20% (n=224) have used them (12% of all graduates). Of those who have used these services:

- 55% have applied for Credit Transfer;
- 28% have applied for a Prior Learning Assessment; and
- 17% have applied for both.

Graduates who have applied for one or both of these services were asked if they had received course credit for courses taken at another institution or from an employer. Three quarters of these graduates (75%) reported that they had received course credit. This course credit resulted in a reduced course load for 68%, reduced tuition for 2%, reduced course load and tuition for 15%, and some other result for the remaining 15%.

The graduates who received course credit (n=168) provided the following evaluations of the services they received:

- 62% were very satisfied;
- 35% were satisfied;
- 1% were unsatisfied; and
- 2% were very unsatisfied.

Peer Tutoring

Sixty-eight percent of graduates were aware of peer tutoring at NBCC. Among graduates who were aware (n=1,305), 16% reported that they had used the peer tutoring system. Graduates who had used the peer tutoring system (n=214) provided the following evaluations of the effectiveness of the assistance provided through peer tutoring:

- 48% provided a rating of excellent;
- 45% provided a rating of good; and
- 7% provided a rating of fair.

Post Program Artistic Involvement of NBCCD Graduates

Graduates of the New Brunswick College of Craft and Design (n=22) were asked several questions about their post-training involvement with the arts community in New Brunswick.

Since graduation, three NBCCD graduates (14%) had applied to the New Brunswick Arts Board or the Canada Council for funding to promote or prepare their craft. Of those who applied, one reported receiving an award or grant.

Since graduation, half of NBCCD graduates (50%) reported that they have contributed to the arts through exhibits, donations or in other ways.

During the reference week, 55% of those who had completed a program through NBCCD (n=12) were practising their craft or preparing for an exhibit for which they were not paid.

The sections which follow present information about graduates on a program-by-program basis.

4.0 Survey Results by College and Program

The following section contains a fact sheet for the Class of 2005, fact sheets for male and female graduates, a fact sheet for each college and fact sheets for all programs for which more than 3 graduates were interviewed. Information is presented first in summary form if the program is offered in more than one location, followed by information on the program for each college.

The programs which follow have been excluded because of the small number of graduates reached (3 or less). Although excluded from this section, labour market information for programs in which graduates were contacted may be found in Section 5.0.

6.0 Graduate Assessments of Programs and Services

In the tables which follow, the percentages for each assessment (excellent, good, fair and poor) are based on responses from those who actually used the services. The final column in these tables (not assessed/not used) is presented for informational purposes. Overall, peer tutoring, employment counselling, counselling services, and student life activities were least likely to be evaluated by graduates.

Appendix A

Terminology

NBCC

The New Brunswick Community College is a network of eleven colleges situated throughout the province of New Brunswick.

Average Weekly Earnings

Refers to the average of the gross earnings that graduates reported for the reference week.

The average weekly earnings are reported for each program and for each college where the program is offered. The figures presented are based on earnings reported by graduates who indicated that their employment was either directly or indirectly related to their training.

Employed

The number of respondents who had a job during the reference week.

Employment

Defined in terms of full-time/part-time and permanent/temporary as follows:

Full-time Employment of 30 hours or more per week.

Part-time Employment of less than 30 hours per week.

Permanent Employment which has no prearranged termination date.

Temporary Employment which ends at a prearranged date.

Employment Rate

The number of employed graduates as a percentage of those in the labour force.

Employment Related to Training

Employed graduates were asked about the extent to which their employment during the reference week was related to their training program. Options presented to the respondent included directly related, indirectly related and not at all related.

Related Employment

Includes employment that graduates reported as either directly related or indirectly related to their training program. *Directly related* means that graduates were in jobs for which their training programs had been designed. *Indirectly related* means that graduates were in jobs that required at least some of the skills that were acquired during their training program.

Not at all related

Means that graduates were in jobs that did not require any of the skills that were acquired during their training program.

Graduate Population

Graduates of regular training programs of twelve weeks or more in duration and graduates of non regular training programs of twenty weeks or more in duration that terminated between January 1, and December 31, 2003.

Labour Force

In the context of this survey, Labour Force is composed of respondents who were either employed or unemployed but looking for work during the reference week.

Not in the Labour Force

Respondents who were not working and not looking for work, during the reference week.

Labour Force Participation Rate

The percentage of respondents who were actively participating in the labour force during the reference week (based on the total number of respondents).

Labour Force Survey

A monthly survey by Statistics Canada which collects labour force information from a representative sample of the working age population.

NAICS (North American Industrial Classification System)

NAICS was used to categorize the industrial sectors/industries in which graduates were employed in the reference week. Fact sheets list the top three industries for employment. If the percentage of respondents is equal across occupations, the three most closely related to the training completed are listed.

NOC (National Occupational Classification)

The National Occupational Classification was used to categorize the kind of work done by graduates. The top three responses are given. If the percentage of respondents in each occupation is equal the three that appear most relevant to the program content are listed.

Programs**Regular**

Programs that operated throughout the year on a year-to-year basis. Regular training programs are funded through the departmental budgetary process. Regular training programs are listed in the annual New Brunswick Community College Calendar. (R=Regular)

Non-Regular

Programs that are offered through the New Brunswick Community College that are not part of the regular program listing in the NBCC Calendar. These programs may or may not have the same content as regular training programs of the same name. (NR=Non-Regular)

Co-op

Cooperative Education Programs integrate periods of classroom study with periods of training in related work. Each work situation is developed and approved by the College as a suitable learning situation. Co-Op trainees are placed in productive work, receive wages and have their progress monitored by the employers and representatives of the College. (Co-Op)

Articulated

A program offered in two stages. One stage is completed at a community college, and leads to a diploma and a second is completed at a university and lead to a degree.

Reference Week

The week of June 6 - 12, 2004 served as the reference week for this survey. During the survey all graduates were asked about their activities during this week.

Response Rate

The number of respondents as a percentage of the number of graduates.

Self Employed

Someone who is working but has no employer other than her/himself.

Total Employment Since Graduation

The total number of graduates who reported that they had been employed, at some time, since completing their training at the NBCC.

Relation of Employment Since Graduation to Training

The percentage of graduates who reported that they held at least one employment positions since graduation which was either directly or indirectly related to their training program at the NBCC.
